Figure 1 - Main Bout Entry Window

7. When you select a weight class, you'll be taken to the window where you can enter the wrestlers, their weights, and the results.

NOTE
 It's important to enter each wrestler's actual weights -- especially if a kid is wrestling up a weight class. For the tournament you'll need to prove that your wrestlers are eligible for their weight class based on the number of times they weighed-in for that bracket.

9. IMPORTANT FINAL STEPS

You can enter relevant notes, if needed, at the bottom before completing the data entry. When you are satisfied that the results are accurate, click the "Notify Admins" link. This will send an email to the league admins, and the meet will not be considered official until they approve the results.
